LETTER OF REFERENCE

Honeywell was selected as a contractor for the delivery of hardware, software and implementation of control systems and safety systems in tender procedure for the bellow listed works for Gdansk Refinery of Grupa LOTOS during the period of 2008 to 20012:

- DEMI - water treatment plants, 5 Units – Experion PKS
- Upgrade all TDC3000 systems to Experion PKS
- CDU/VDU Unit – Experion PKS + Safety Managers for ESD/BMS systems
- HGU Unit – Experion PKS + Safety Managers for ESD/BMS systems
- ROSE Unit – Experion PKS + Safety Managers for ESD/BMS systems
- Power Plant – revamp of heating system for two boilers - from heavy oil to natural gas

Honeywell confirms that LOTOS Serwis Sp. z o.o. was our main subcontractor in the execution of the following works for above mentioned projects :

- Implementation of DCS systems
- Implementation of ESD/BMS systems
- Operator graphics design
- Performing functional tests
- Precommissioning works and services
- Commissioning works and services
- Integration of the DCS control system with third party devices

All the works and services were provided in a professional manner, LOTOS Serwis Sp. z o.o. had delivered qualified and competent specialists. We do thank LOTOS Serwis sp. z o.o. for their continued effort and support and do not hesitate to strongly recommend them as reliable and trustworthy business partner.
